

## Customer Maintenance Training Seminar

West Coast Compressor is proud to be your partner in maintaining your Sullair equipment and would like to extend our thanks by inviting you to our Customer Maintenance Training Seminar.

This is a one-day seminar designed to help you learn about and maintain your Sullair equipment. Training will be conducted by Sullair Factory Service Personnel.

We are hosting this seminar on April 21, 2010 from 8:00am to 4:00pm at the **Hotel Sierra** 3915 Rivermark Plaza Santa Clara, CA 95054 Phone number **(408) 486-0800**.

Attendance is limited to **25 people**; seminar participants will be accepted on a first-come, first-served basis. **The deadline to register is March 15, 2010.**

*Sullair LS-160 Single-Stage Air Compressor*

West Coast Compressor  
4555-B Las Positas Rd.  
Livermore, CA 94551

## Attention Owners and Operators of Rotary Screw Compressed Air Equipment

**West Coast Compressor**

Ph: 866-326-6586

Sullair Service Seminars teach “**Best Practice**” maintenance to extend the life of your Sullair Compressor.

**Sullair Maintenance Training** will provide you the information and tools that you need to protect your Sullair equipment. This is an interactive training program. **Your** questions are encouraged and **our** answers will save your company money. This training will give you the opportunity to discuss your specific maintenance concerns.
